Dear Sir:

Your letter was received, and the Corresponding Secretary of the Missionary Lyceum on the point of leaving town placed it in my hands to lay before the Lyceum. but I failed to do so before we suspended our meetings for the term. We have had a Society established for a long while, here with the above title corresponding to Societies of Christian Benevolence and Inquiry in many of the colleges. Considerable interest has been manifested in sustaining it during the

present college year. We
have about 92 professors
of religion out of 123
on the Catalogue of the
Inst. Of these about 40
are preparing for the Min-
istry. The state of religious
feeling in college is good.
though no general revival.
The Lyceum will no doubt
be glad to correspond
with your Society and
be in readiness to commu-
nicate anything of interest
in reference to the religious
condition of our college. —

Yours in Christian
fellowship and labor
W. H. Smith

Chas H. Malcom,
Princeton Sem.
